

CONTENTS

	<u>Page No.</u>
CONTENTS	ii
1. INTRODUCTION	1
2. TECTONICS, SEISMICITY AND EARTHQUAKE OCCURRENCE PATTERN OF TURKEY	6
2.1 Tectonics	6
2.2 Seismicity	8
2.3 Earthquake Occurrence Pattern.....	8
3. GEOLOGY AND HYDROGEOLOGY OF ÇUKUROVA BASIN AND ITS VICINITY	12
3.1 Geology	12
3.2 Hydrogeology	24
4. TECTONICS AND STRESS STATE OF ÇUKUROVA BASIN.....	29
4.1 Tectonics	29
4.2 Stress State	35
5. SEISMO-TECTONICS OF ÇUKUROVA BASIN.....	37
6. SEISMIC CHARACTERISTICS OF THE ADANA-CEYHAN EARTHQUAKE, AND FAULTING	40
6.1.Foreshocks.....	46
6.2. Main Shock	46
6.3 Aftershocks.....	47
6.4 Faulting	47
6.5 Comparisons with other Turkish Earthquakes and Attenuation	48

7. DAMAGE TO STRUCTURES	53
7.1 Response Spectra of Structures	57
7.2 Natural Periods of Structures in Turkey	57
7.3 Response analyses of Structures.....	58
7.4 Domes and Minarets	58
7.5 RC Structures.....	70
7.6 Prefabrique RC Structures	75
7.7 Masonary structures.....	75
6.2.1. Kerpiç (Adobe) Masonry Sturctures	77
6.2.2. Tuğla (Brick) Masonry Sturctures	78
6.2.3. Taş (Rock) Structures.....	80
7.8 Hımiş(Wooden) Structures.....	82
7.9 Water towers, Pylons, Chimneys and Roofs.....	82
7.9.1 Water Towers	82
7.9.2 Pylons and Poles	85
7.9.3 Chimneys and Roofs	86
7.10 Dams.....	88
7.11 Roadways and Railways	88
7.12 Bridges.....	91
7.13 Canals.....	96
7.14 Machinery.....	98
7.15 Damage Distribution in Ceyhan Town.....	99
7.16 Spatial Distribution of Collapse Directions of Some Structures.....	101
8. LIFELINES	102
7.1. Electricity	102
7.2. Water Supply Systems	102
7.3. Sewage Systems	103
7.4. Telephone System	103
9. Slope and Embankment Failures	104
9.1 Soil Slope Failures	104
9.2 Rock Slope Failures	

9.3 Embankment Failures.....	104
10. LIQUEFACTION AND GROUND FAILURES.....	110
10.1 Liquefaction and Its Effects	110
10.2 Sampling and Soil Properties.....	116
10.2.1 Physical and index Properties.....	117
10.2.2 Static Shear Strength of the Liquefied Soils.....	120
10.3 Comparison of the Düzce-Bolu Earthquake Data With Those Other Earthquakes Occurred in Turkey	122
11. HUMAN OBSERVATIONS BEFORE THE MAIN SHOCK AND AFTERSHOCKS.....	123
12. CONCLUSIONS.....	125
ACKNOWLEDGEMENTS	126
REFERENCES	128
