

**Example of Design Calculations Based on JSCE Standard Specifications for Concrete Structures  
- Reinforced Concrete Superstructure of Open-Type Wharf-**

**CONTENTS**

<b>1. Introduction</b>	1
<b>2. Structure of Open-Type Wharf and Performance Requirements</b>	2
2.1 Specifications of Structure	2
2.2 Performance Requirements	4
<b>3. Conditions for Performance Verification</b>	5
3.1 Design Service Life	5
3.2 Materials	5
3.3 Load	5
3.4 Load Combination and Load Factor	8
3.5 Flow of Performance Verification	8
3.6 Limit on Crack Width	10
3.7 Prerequisite of Verification	10
3.8 Structure Factor	12
<b>4. Verification of Floor Slab</b>	13
4.1 Structural Overview	13
4.2 Performance Verified	14
4.3 Load Acting on Floor Slab	14
4.4 Characteristic Values of Force Resultant	15
4.5 Design Values of Force Resultant	18
4.6 Examination of Ultimate Limit State	19
4.7 Examination of Serviceability Limit State	21
4.8 Examination of Fatigue Limit State	24
<b>5. Verification of Beam</b>	29
5.1 Structural Overview	29
5.2 Performance Verified	29
5.3 Load Acting on Beam	29
5.4 Characteristic Values of Force Resultant	34

5.5	Design Values of Force Resultant .....	42
5.6	Examination of Ultimate Limit State .....	45
5.7	Examination of Serviceability Limit State .....	47
5.8	Examination of Fatigue Limit State .....	50
<b>6.</b>	<b>Examination at Pile-to-Beam Joint .....</b>	<b>55</b>
6.1	Introduction .....	55
6.2	Examination at Pile Head .....	56
6.3	Anchorage of Reinforcement .....	58
<b>7.</b>	<b>Verification for Durability .....</b>	<b>59</b>
7.1	Carbonation-Induced Corrosion .....	59
7.2	Chloride-Induced Corrosion .....	60
7.3	Freezing and Thawing .....	62
7.4	Chemical Attack .....	62
7.5	Alkali-Aggregate Reaction .....	62
7.6	Water Tightness .....	63
<b>8.</b>	<b>Constructibility .....</b>	<b>64</b>
8.1	Construction Planning .....	64
8.2	Performance of Concrete for Construction .....	64
8.3	Concrete Production .....	65
8.4	Ready-Mixed Concrete .....	65
8.5	Mix Design of Concrete .....	65
8.6	Verification of Cracking at Construction Stage .....	67
<b>9.</b>	<b>Maintenance and Rehabilitation .....</b>	<b>70</b>
9.1	Maintenance Planning .....	70
9.2	Maintenance Category A .....	73
9.3	Maintenance Category B .....	87
9.4	Estimation of Life-Cycle Cost .....	90
9.5	Inspection Plan .....	92
9.6	Evaluation of Inspection Result and Selection of Measure .....	97
9.7	Record .....	97
