

English Journals from the Japan Society of Civil Engineers

The Japan society of Civil Engineers (JSCE) is responsible for introducing our academic accomplishments and engineering activities in Japan to the world. We also devote ourselves to exchange academic information regarding innovation in civil engineering internationally.

To achieve this role, we are currently publishing the following official English journals.

Structural Engineering/Earthquake Engineering *biannual*

Areas covered: mechanics of materials, structural mechanics and engineering, earthquake engineering, structural dynamics and vibration control, reliability and risk analysis, wind engineering, aesthetics of structures, computational mechanics, optimal design, fatigue and maintenance of structures.

Journal of Hydrosience and Hydraulic Engineering *biannual*

Areas covered: hydraulics, hydrology, river-engineering, sanitary engineering, coastal engineering and new fields to be developed in the science of water engineering.

Coastal Engineering Journal *quarterly*

Areas covered: offshore and nearshore waves and currents; sediment motion and morphodynamics; coastal, harbour and offshore structures; conceptual developments and predictive methods of environmental processes; coastal zone development, shore protection, and prevention or mitigation of coastal disasters; technical reports on field measurements and case studies of real projects.

Concrete Library International *biannual*

Areas covered: materials, concrete structures and pavements; selected technical papers published in Japan, recommendations for design and construction practices prepared by the Concrete Committee of JSCE.

Journal of Global Environment Engineering *annual*

Areas covered: **Physical aspects of global environmental problems** (climatic change, sea level rise, destruction of the ozone layer, acid precipitation, international water disputes, marine pollution, transboundary movement of hazardous wastes, desertification, species extinction, and conservation of historical and cultural inheritances); **Socio-economic aspects of global environmental problems** (environmental issues in developing countries, injurious impacts of global environmental change on developing countries and minority groups, double standards, deportation of environment-disruptive industries to developing countries, response strategies in developed countries, depletion of natural and energy resources, and civil engineering technologies in developing countries).

All of these journals are open to original contributions by researchers and engineers from abroad.

SUBSCRIPTION

Subscription Prices per Volume (including surface mail postage)

Structural Engineering/Earthquake Engineering	US\$46.00
Journal of Hydrosience and Hydraulic Engineering	US\$90.00
Coastal Engineering Journal	US\$250.00
Concrete Library International	US\$80.00
Journal of Global Environment Engineering	JY¥3,000 (JSCE members)
	JY¥6,000 (non-members)
	extra JY¥1,000 for Airmail
Civil Engineering, JSCE	US\$20.00

Send or Fax your order to:

MARUZEN Co., Ltd., Export Department
P.O. Box 5050, Tokyo International 100-3199, Japan
Fax +81-3-3278-9256
E-mail: k_ito@maruzen.co.jp

INSTRUCTION FOR APPLICATION

This form is for both individual members and student members of JSCE. Please type or write (block letters/black ink) this application and return it to us with the appropriate fees.

1. Membership Requirements

(1) Individual Members

- a) A person with sufficient knowledge and experience in civil engineering.
- b) A person engaged in civil engineering work after completing courses in civil engineering.
- c) A person with qualifications or experience equal to a) or b).

(2) Student Member

A student currently studying civil engineering in a university, technical institution or college, high school or other similar school.

2. Registration Fee and Membership Fee

- (1) After confirmation of your registration fee and annual membership fee, the registration procedure will be started; it will take a month to complete.
- (2) If you plan to register at the end of the fiscal year (Jan.-Mar.), you are required to pay the next annual membership fee in advance.
- (3) Membership fee covers a subscription to the monthly JSCE's Journal (in Japanese). For overseas members, a postal and handling charges will be added.

a) Individual Member

Registration fee	¥1,000.-	
Annual membership fee	¥12,000.-	(¥1,000 x 12 months)

b) Student member

Registration fee	Free	
Annual student membership fee	¥6,000.-	(¥500 x 12 months)

Annual postal and handling charges for overseas member (by surface mail)	¥3,800.-
--	-------	----------

- (4) From the second year, an invoice for membership and subscription fees of the Proceeding will be sent to you at the beginning of the year.
- (5) For payment, please use the attached postal transfer sheet. A bank check can be used for payment from overseas through the following bank transfer.

Bank name:	Daiichi Kangyo Bank
Branch name:	Yotsuya Branch
Account No.:	1004632
Address:	1-4, Yotsuya Shinjuku-ku, Tokyo, Japan

* Please be sure to refer to your name and our invoice number on the postal transfer sheet.

3. Privileges for JSCE membership

- (1) You will receive monthly “JSCE’s Journals” in Japanese. All information about JSCE activities is generally announced through this journal.
- (2) You may subscribe annually to the “Proceedings of JSCE” (in Japanese) or to some of our English journals at a reduced price.
- (3) You may use the Civil Engineering Library of JSCE free of charge by showing your membership card. A lending service is not available.
- (4) You may purchase specific JSCE Publications at a reduced price if you order them directly from JSCE Headquarter by letter or facsimile, or come to purchase them directly.
- (5) When you participate in study meetings symposiums, lecture meetings, etc., which JSCE sponsors or co-sponsors with other organizations, part of admission, registration, or material fee can be reduced.

4. Details of “Proceeding of JSCE” are as follows. If you want to subscribe to any particular division(s), please remit the appropriate fee along with other payable fees (registration fee, membership fee and so on).

Proceeding of JSCE (in Japanese)

Division	Specified Fields	Months issued	1-year subscription fee
I	Structural Engineering & Earthquake Engineering (structural, mechanics, applied mechanics, etc.)	April, July, October, and January	¥4,000
II	Hydraulic & Sanitary Engineering (hydraulics, coastal engineering, sanitary engineering, etc.)	May, August, November, and February	¥4,000
III	Geotechnical Engineering (soil mechanics, rock mechanics, etc.)	June, September, December, and March	¥4,000
IV	Infrastructure Planning & Management (planning, transportation engineering, etc.)	April, July, October, and January	¥4,000
V	Concrete Engineering & Pavement (reinforced concrete, materials, etc.)	May, August, November, and February	¥4,000
VI	Construction Management & Engineering (engineering, etc.)	June, September, December, and March	¥4,000
VII	Journal of Environmental Systems and Engineering	May, August, November, and February	¥4,000

5. Withdrawal and Reinstatement

- (1) If you wish to retire from JSCE, please inform our Membership Section (address follows) in writing (letter or fax).
- (2) If you have been a member of JSCE in the past and want to rejoin, please send a completed application form with membership fee to the Membership Section.

Please send this application form or other inquiries regarding membership to
