The Standard Specifications for Tunneling-2006 (English Edition) is available now. It is a three-volume series- “Mountain Tunnels,” “Shield Tunnels” and “Cut and Cover Tunnels” and the first and most comprehensive reference for tunnel constructions in Japan. It is a must-have for tunneling engineering experts engaging in tunnel projects in Japan or abroad, and for students and researchers working in relevant disciplines / fields.

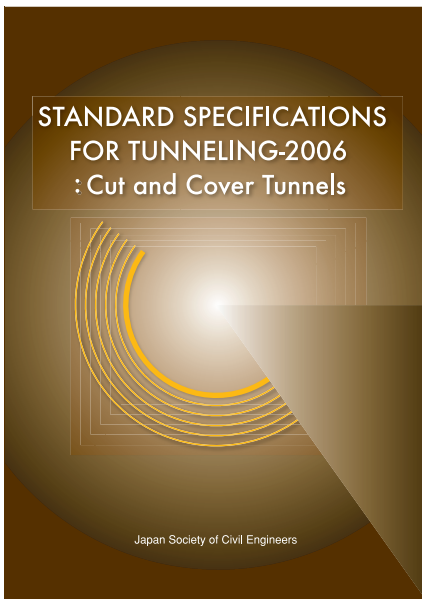

■ Editor : Tunnel Engineering Committee

● **Shield Tunnels 2007.8 page271**
 ISBN:978-4-8106-0568-6, Price ¥3,800

Contents
 1.GENERAL/ 2.LINING/ 3.SHIELD MACHINES/
 4.CONSTRUCTION AND CONSTRUCTION FACILITIES/
 5.LIMIT STATE DESIGN METHOD

● **Cut and Cover Tunnels 2008.11 page370**
 ISBN:978-4-8106-0587-7, Price ¥4,000

Contents
 1.GENERAL/ 2.TUNNEL DESIGN/
 3.DESIGNING TEMPORARY STRUCTURES/
 4.CONSTRUCTION

How to Order

To order, please send the following information for the publications of your choice by either e-mail or fax: the book title, number of copies, your name, address, telephone no., fax no. and/or e-mail address
 Shipping and handling charge will be applied to all orders.
