International Workshop for Young Civil Engineers

Facing the Challenges of Our Future Society

Visit website: <http://www.jsce-int.org/node/249>

Aim of the workshop: In commemoration of the 100th anniversary of the Japan Society of Civil Engineers (JSCE) 2014, an international workshop will be held for young civil engineers, titled 'Facing the Challenges of Our Future Society', where engineers from Japan (including international students) and overseas will discuss the challenges facing our future society.

In the workshop, participants will imagine our world in 2050 and consider the problems we will face and the role of civil engineers play in achieving a better society. This event will provide an opportunity for a frank exchange of views on the future of our society among current and future young civil engineers.

Place: Osaka University, Toyonaka, OSAKA

Date: 10th – 13th September 2014 *13th Sep. is for technical tour

Participants: Young Engineers (including students) below 35years old

Engineers in Japan : 35 *including non-Japanese

Oversea engineers : 15 *application through partner institutions of JSCE

Fee: Free (inclusive of workshop party and technical tour)

Schedule:

10 th September	ice- breaking meeting (evening)
11 th – 12 th September	Workshop and presentation
13 th September	Technical tour

How to apply (for engineers and students below 35 yrs. old in Japan)

To participate in the workshop, please submit an essay on the role of civil engineers in our future society. (approx. 200 words each) Format and detail information is downloadable on the workshop website above. Please send your essay **by 31th March** to the contact e-mail address below (t-kikuchi@jsce.or.jp Mr. Kikuchi).

Participants will be selected based on their submitted essays if the number of applicants exceeds the quota, with notification by the end of April 2014.

Support:

For the participants from Japan, accommodation during the workshop is provided. Official certificate of participation in the workshop is given by JSCE.

Inquiry: International Activities Center, Japan Society of Civil Engineers (JSCE)
